

Fly your rocket through lo spazio!

Instructions: Cut out the rocket, vocabulary cards, and hint cards. Lay out the picture cards face up (perhaps on a black background!) The parent holds the hint cards and asks their child to fly to, **“Vola verso...”** (VOH-lah VEHR-soh), and reads one of the hints. Ex: **“Vola verso... un pianeta blu e verde.”** The student then pilots their rocket through space to the right card, saying the name when they arrive!

Mercurio

Stelle

La Terra

Marte

Hint: Un piccolo
pianeta grigio

oon PEEK-koh-loh pyah-
